PROFILE

Computer Science student with hands-on experience building frontend web applications and working across digital projects. Comfortable with HTML, CSS, JavaScript, Bootstrap and React, with practical experience using modern development tools. Built and deployed projects including a campus management platform for Federal University Oye Ekiti. Also experienced in project coordination, social media management and community growth, with the ability to research, troubleshoot and learn new technologies independently.

TECHNICAL SKILLS

Frontend Development	HTML, CSS, JavaScript, Bootstrap, React, Tailwind CSS
Development Tools	Git, GitHub, VS Code, Vite, Vercel, React Router
Development Practices	Responsive Web Design, UI Implementation, Version Control, Debugging, Research, Documentation
Other	Project Coordination, Digital Product Development, Team Collaboration
AI Assisted Development	Using AI tools for coding support, debugging, research, documentation and problem solving

PROJECTS

FUOYE Smart Campus Management System

Frontend Developer | Academic Project

• Built a web-based campus management platform designed for Federal University Oye Ekiti students.

• Developed interfaces for hostel discovery, hostel details, classroom booking, student profiles and administrative management.

• Used React, JavaScript, Tailwind CSS, Vite and React Router during development.

• Implemented responsive interfaces designed to work across different screen sizes.

• Deployed the application using Vercel and maintained the project using Git and GitHub.

• Designed the system to reduce the difficulty students face when finding suitable accommodation and managing campus spaces.

Artist Information & Management Form

Frontend Developer

• Built a frontend web application for a music-focused company to collect information from artists.

• Created a structured form for artists to submit personal, professional and project-related information.

• Focused on clear navigation, responsive design and a straightforward user experience.
